

Anja van Meijl

Nationality: Dutch

Anja was born in the Netherlands in 1985. She studied "Business Economics" at Fontys University of Applied Sciences in Eindhoven and did her internships at Trespa BV in Weert and the Rabobank in Budel. In 2007 she received her diploma and started her working career as an Assistant Controller at Fontys University of Applied Sciences. Among other things she conducted an analysis about the purchase procedure.

Anja continued her career at Fontys University as an Operational Manager at Student Affairs. Her primary responsibility was the administrative organization of the registration process.

In 2008 she moved to Fontys International Projects. There, she gained extensive experience in the financial administration of international projects (and grants). Since 2010 Anja has worked for MeduProf-S and is responsible for the planning & control, insurances and salary administration of MeduProf-S.
